Acura Mdx Engine Light Vtm

Hello, VTM-4 stands for "Variable Torque Management" related to the Super Handling All Wheel Drive SH-AWD system your MDX has. The warning light can come on in relation to a failure that causes the check engine light to also come on. Focus on diagnostic testing for the check engine light; repairing a common failure will likely resolve both lights.

will disengage automatically. The VTM-4 also works in reverse gear.

SOLVED: I got check engine light and vtm 4 light on my - Fixya

When you first turn the car on (the VTM-4 light is OFF) you can shift to 1st gear, tap the VTM-4 Lock button, the light on the button lights and you can go forwards (ostensibly with 4WD). BUT, if you go driving till you're up into about 3rd gear (less than 1 block), the VTM-4 dashboard light comes ON AND then, if you stop, shift to first and tap the VTM-4 Lock button nothing happens!
