States. In 2011, women held 18.2% of positions at the highest levels in ministries dealing with the environment/climate change, transport and energy policy.

## **Environment and climate change | European Institute for ...**

A carbon border adjustment mechanism could complement the package to avoid an increase in emissions outside the EU due to higher carbon prices in the EU (“carbon leakage”). From a risk-reward perspective, the benefits of reducing the risk of extreme life-threatening climate events and the health benefits from lower air pollution clearly outweigh the costs of mitigation policies.
