The second edition incorporates the topics covered by the SOA's three study notes, including the following: interest rate determinants, defaults, inflation, T-bills, corporate bonds, first-order Macaulay approximations, and the U.S. banking system.

Exam FM - ActuarialBrew

Leslie Vaaler is the author of 'Mathematical Interest Theory (Mathematical Association of America Textbooks)', published 2009 under ISBN 9780883857540 and ISBN 0883857545.

Mathematical Interest Theory (Mathematical Association of ...

Book Description: The 2nd edition of this successful book has several new features. The calibration discussion of the basic LIBOR market model has been enriched considerably, with an analysis of the impact of the swaptions interpolation technique and of the exogenous instantaneous correlation on the calibration outputs.
