Abstract This paper investigates the hypothesis that coalition behaviour in West European parliamentary systems is conditioned by the existence of 'policy horizons' that delimit the extent to which parties can compromise on policy positions in order to participate in government.

Policy horizons in West European parliamentary systems ...

The main difference between parliamentary and presidential form of government is that in the parliamentary system, there exists a harmonious relationship between the legislative and executive body, while the judiciary body works independently. As against this, in Presidential form of government, the three organs of the government work independently of each other.

Difference Between Parliamentary and Presidential Form of ...

Parliamentary systems like that found in the United Kingdom are widely considered to be more flexible, allowing rapid change in legislation and policy as long as there is a stable majority or coalition in parliament, allowing the government to have 'few legal limits on what it can do' Due to the first-past-the-post 'this system produces the ...

France - France - Government and society: Over recent decades France has experienced extensive change. Rapid urbanization and suburbanization have transformed many former rural areas. At the same time, many of the large cities have been faced with a growing need for renovation and rehabilitation, often in the face of rising levels of crime. The once dominant industrial regions of northern ...

France - Government and society | Britannica

Electoral accountability requires that voters have the ability to constrain the incumbent government's policy-making power. We express the necessary conditions for this claim as an accountability identity in which the electoral system and the party system interact to shape the accountability of parliamentary governments.

The Electoral System, the Party System and Accountability ...

to foster greater accountability on the part of the government of the day towards the people's representatives. Proponents argue that this means that there is not only greater public control over the policy-making process, but also greater transparency in the way decisions are made. The major disadvantages of parliamentary systems include:
