Exploration Guide & raquo; Adding Vectors Describing Vectors In this activity, you will explore vectors and ways of describing them by magnitude and direction. tm 1. In the Gizmo , notice that there are two vectors on the graph, and .

Exploration Guide_ Adding Vectors Gizmo | ExploreLearning

The Gizmo allows students to position and adjust the length and direction of two vectors, a and b . By positioning the tail (initial point) of b on the head (terminal point) of a , students can find the sum, or the resultant vector. Students can then add the components of a and b to numerically determine the resultant.
